

DAYTON WHEEL CONCEPTS, INC. THREE YEAR LIMITED WARRANTY

ELIGIBILITY

This limited warranty covers Dayton Wire Wheels and related components manufactured or sold by Dayton Wheel Concepts, Inc. You are eligible for the coverage of this warranty if you are the original owner of the wheel or component and if the wheel or component has been used only on the vehicle for which it was specifically designed. Transfer of title of any Dayton Wire Wheel or component voids this warranty.

COVERAGE

The term of this limited warranty is three years from date of purchase. The sole obligation of Dayton Wheel Concepts under this warranty is to repair or replace, at its option, any Dayton Wire Wheel or component, returned freight prepaid, which is determined by Dayton Wheel Concepts to have been defective in material or workmanship. Such repair or replacement will not include installation charges or incidental expenses.

LIMITATIONS

No representative or dealer has the authority to make any representation, promise, or agreement on behalf of Dayton Wheel Concepts.

The following are not covered by this warranty:

1. Any wheel or component which has been subjected to misuse, negligence, racing, loads in excess of stated load rating, improper installation, collision, or damage from wheel weights.
2. Damage to the surface finish of the wheel or component as result of stone chips or similar road hazards.
3. Damage to the surface finish of the wheel or component as a result of the use of polish, abrasives, or rubbing compound, or acid based cleaners.
4. Damage to the surface finish of the wheel or component as a result of abrasion by balance weights.
5. Any wheel or component that is installed on a vehicle other than for which the wheel or component was designed.
6. Any wheel or component damaged as a result of the use of wheels or components made by manufacturers other than Dayton Wheel Concepts.
7. Any wheel or component that has been repaired or altered by a party other than Dayton Wheel Concepts.
8. Corrosion or defects not resulting from manufacturing defects in workmanship or material.
9. Gold or chrome plating which has been scratched or removed by cleaning brushes, polish, abrasives, or rubbing compound.
10. Knock-off wheels require special care and attention. These wheels should be inspected regularly to ensure the caps are tight.
11. Any vehicle with knock-off wheels must be towed properly. This warranty will not cover damage to wheels, damage to property or personal injury caused by towing the vehicle backwards. We recommend that vehicles fitted with knock-off wheels be towed on a flatbed truck.

DISCLAIMER

THE LIMITED WARRANTY DESCRIBED HEREIN IS THE SOLE WARRANTY AND IS EXPRESSLY IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL DAYTON WHEEL CONCEPTS BE LIABLE FOR ANY OTHER REMEDY INCLUDING, BUT NOT LIMITED TO, DIAGNOSIS, REMOVAL AND INSTALLATION LABOR, LOSS OF VEHICLE USE, LOSS OF TIME, INCONVENIENCE, OR ANY OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSSES OR EXPENSES ARISING IN CONNECTION WITH THE USE OF OR INABILITY TO USE THE PRODUCTS COVERED BY THE LIMITED WARRANTY FOR ANY PURPOSE WHATSOEVER.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

IF WARRANTY SERVICE IS NEEDED

The following procedure is to be followed if a problem arises with a Dayton Wire Wheel or component:

1. Contact the dealer where the purchase was made and attempt to resolve the problem.
2. If the dealer does not resolve the problem, contact Dayton Wheel Concepts, 115 Compark Road, Dayton, Ohio 45459, or call 1-937-438-0100.
3. Any shipment of wheels or components to Dayton Wheel Concepts must be freight prepaid.

A warranty adjustment will require verification of date of purchase. The original invoice showing ownership and the date of purchase is acceptable. If the proof of purchase is not available for verification, then the warranty will begin on the manufacturing date engraved on the wheel.

Cleaning and Care of Chrome Plated Dayton Wire Wheels

1. Never use polish or abrasive cleaners on chrome. Rubbing compounds or polishes will remove the chrome plating.
2. Never apply cleaners to wheels that are HOT from use. Many car wash wheel cleaners and chrome brightener solutions can remove chrome if applied to hot wheels. Always cool wheels with water before applying cleaner.
3. Before washing wheels, apply a liberal amount of cool water. Spray on recommended Dayton Wire Wheel Cleaner as instructed. Allow soaking for 1-2 minutes. During the soaking, heavy dirt deposits can be loosened with a stiff bristle paintbrush. Wash off the cleaner with a high-pressure water spray.
4. Protect the wheels and increase their brilliance by applying WD-40, non-abrasive wax, or similar protective coating.
5. If light surface rust ever appears on the wheels, various 2-step acid based chrome brighteners such as Eagle One or Espree Wire Wheel Cleaner can remove it.

CAUTION: Acid based cleaners are powerful and should not be used frequently. Do not apply to dry or hot wheels - cool wheels with water before applying cleaner. Do not allow cleaners to remain on wheels longer than recommended by the manufacturer. Rinse wheels thoroughly with water when cleaning is completed. Excessive cleaning or inadequate rinsing will remove and weaken chrome plating. This is not covered by the warranty.

6. Hard silicon rotating brushes are being used at some car washes. These brushes, intended to clean white sidewall tires, can damage the finish of the wheels. Tracks used to guide the vehicle through some car washes can also cause damage.

You can purchase Dayton Wire Wheel Cleaner by calling 1-800-862-6000 or visit our on-line store at www.daytonwheel.com.
